ARTHUR CECIL PERRY

Arthur Cecil Perry was born April 10, 1852, the son of Isaac Stearns Perry, a New England clergyman and teacher, and Fidelia Taft Raymond. Both parents trace their ancestry in all lines to New England immigrants who arrived within a half-century of the landing of the Mayflower.

Mr. Perry was born at Rocky Hill, Conn., near Hartford, and lived successively at Rahway, N. J., Bellows Falls, Vt., and Northfield, Mass., at which place his father died May 2, 1865. His mother moved to Winchendon, Mass., her former residence. In 1868 he went to Poughkeepsie, New York, where he was graduated from the Eastman National Business College. He then went to New York City, entered the employ of the Continental Life Insurance Company, and remained there until 1876. In that year he went with the United States Life Insurance Company, of New York, becoming its Cashier in 1888, which position he held until he retired in 1922. During all of this period he lived in Brooklyn (now the borough of Brooklyn in the City of New York), residing successively on Leonard Street, Noble Street and Oak Street; then, 208 Eckford Street, 101 Milton Street, 615 St. Mark's Avenue, and 226 Halsey Street, his present residence.

Mr. Perry has pursued several avocations of a scientific nature, chiefly astronomical. He is a member of the Brooklyn Institute of Arts and Sciences, a Fellow of the Royal Astronomical Society (English), and a member of the American Association for the Study of Variable Stars, which has engaged most of his attention in later years.

In 1897 he discovered the variability of the star listed in the Harvard Catalogue of Variable Stars as Z Puppis, 072820 b. He has done a large amount of travelling in the Eastern parts of the United States and Canada.

Mr. Perry married Anna Margaret Owen, May 2, 1872, in St. George's Church, Newburgh, N. Y. He and his wife are members of The Church of the Good Shepherd (Episcopal), Brooklyn. Mrs. Perry's ancestry is

Margaret Dusenberry... (1767-1847)
William Dusenberry (1731-1815) (In War of Revolution)

The Dusenberry line leads back to the following immigrants: Hendrick Hendricks van Dorsburgh; Marritie Hendrickson van Haarlem; Jarvis Mudge of New London, Conn.; and Samson Hawkshurst, B. A., Oxford University.

The descendents are:

Throughout this record the name of each individual is accompanied by a Roman number denoting the generation, followed by an Arabic number denoting the serial number of the individual within his generation. Males therefore bear odd numbers; females, even. Abbreviations are: b, *born;* d, *died;* m, *married;* un, *unmarried;* ch, *child* or *children;* bp, *baptised;* pr, *probably;* po, *possibly;* g, *graduated;* c, *about.* When places are named without other explanation it indicates residence. Dates are given entirely in numerals: month, day, year. When unecessary, the first two figures of the year are not given.
